- Department of Defense (DoD) reorganizing the DOD Grant and Agreement Regulations (DoDGARs) which may have some deviation from Uniform Guidance
 - (use regulations to ensure compliance)

- The FAQ's for the Uniform Guidance (UG) were revised in September of 2015 and included an extension of the grace period to comply with the procurement standards to **two** years after the effective date of the UG. For WVU, the UG procurement standards will go into effect for the fiscal year beginning July 1, 2017.

Recent OIG Audit Findings

 - Findings included effort reports for nearly 200 individuals were not created and verified by the individuals
- University of Illinois Champaign – NSF audit 9/25/2014 - questioned Costs of \$173,290 included equipment purchased in the last 30 days of an award
- University of California, Los Angeles – NSF audit 8/14/2014 – Findings included late effort report certifications
- University of North Carolina Chapel Hill – DHHS audit 6/27/2014 – Found \$335,874 of questioned costs including inadequately documented cost transfers

**Effort reports for the January – June 2015 period were due on:
October 2, 2015.**

Questions from the Group

Question - When I review an effort report, should I be validating the dollar amount or the percentage?

Effort Reporting is the percentage effort.

Question - When an employee's signature is unobtainable, who should sign their effort report?

If the employee is not available, the person with the most direct knowledge of the effort should sign (e.g., supervisor or PI). Situations where an employee may not be available are:

- a. They are no longer employed at WVU
- b. They are a student (a supervisor uses discretionary authority to sign on their behalf in these cases)
- c. They are “out in the field”, out of the country, on medical leave, etc.

Questions - In MAP-OGM, where can you see what reports are required for a sponsored award per the terms and conditions of the award agreement?

The reporting requirements are shown under the reporting section rather than the terms and conditions section. To get to the reporting section, click on the arrow midway down on your screen. This will give you access to the reports tab, which you can then click on to see all reports associated with that particular award.

Question - I'm not sure when I should call the Office of Sponsored Programs (OSP) or Sponsored Research Accounting (SRA). Who handles what?

- **OSP** should be contacted for all pre-award activities up through your initial award set up. They also handle administrative actions that require agency approval once an award is in place, plus subcontracting and questions related to the non-financial aspect of an award.
- **SRA** is the point of contact for any accounting related questions. Among the things they handle are internal budget modifications, budget transfers, financial closeout.
