Uniform Guidance – What is it?

- This reform streamlines the language from eight existing OMB circulars into one consolidated set of guidance in the code of Federal regulations.
- This consolidation is aimed at eliminating duplicative or almost duplicative language in order to clarify where policy is substantively different across types of entities, and where it is not. As a result, the guidance includes sections and parts of sections which are clearly delineated by the type of non-Federal entity to which they apply.
- OMB published the Uniform Guidance in the Federal Register on December 26, 2013, and directed Federal Agencies to implement by December 26, 2014
